Frictons in the M&A market

- What characteristics of targets can help reduce the adverse effects of information asymmetries?
My Research Interests (1)

- Search and Discovery
- Target Selection
- Deal Structuring
- Post-Merger Integration

Targets

1. Consider information within the M&A market
2. Consider information from the IPO market to the M&A market
3. Consider acquirers’ heterogeneous capabilities in interpreting information and structuring M&A deals
My Research Interests (2)

- Broad interests:

  - The role of CSR in M&As
  - Whether the VC backing will encourage or discourage the internationalization of startups
  - …

  IJVs in China
  Partner Selection
  Entry Strategies
  Deal Structuring
  Information Economics
  IPO Acquisition Premium
  IPO M&A Termination Provisions
  Interorganizational Imitation and Acquisitions of High-tech Ventures
